

Weekly Student Practice Log

Student Name: _____

Choir(s): _____

“Practice” constitutes time outside of class. This can mean any time other than choir class time. Students in Chorale and Excelsior are expected to practice at least one hour per week, while students in Concert Choir, Men’s Chorus, and Women’s Chorus are expected to practice at least 30 minutes per week. Students in multiple choirs need only practice as long as what is required of the top choir in which they sing. It is expected that you practice what you need most to practice. You may practice with or without a piano, with or without practice tracks, but you should always strive to practice correct singing, correct notes, and in a quiet space. You can practice your full time all at once or numerous times over several days for shorter periods. **You should keep a log *summarizing your week of practice, but do write down the date and time of each practice session.*** Complete sentences are expected. Logs are due EVERY MONDAY, unless otherwise noted.

Practice Date(s) and Times: _____

What pieces did you practice? _____

Describe your practice session, what you worked on, and what you learned.

What is your goal for choir for the upcoming week?
